

I don't often feel compelled to write something like this, however, our experience with Move Plus last weekend was exceptional. We had three men working together to move my 83 year-old mother out of her home into a small apartment. From the very first contact I had with you on the phone, all the way through furniture wrapping, loading, unloading and placing in the apartment, your company made what could've been a nightmare into a very pleasant day for all of us.

Thank you for the wonderful service.

A very satisfied customer,
Susan Sutherland
